Chapter Updates:

2020 SW Ohio ASSP Chapter Survey

We are asking each member to review and complete the survey because the lack of availability to conduct in person meetings is driving change and we want to hear back from our members how they want to move forward as a chapter. This information is critical to have completed by June 8th in time for our chapter strategic planning meeting on June 9th.

REGIONAL NEWS:

ASSP 2020

Safety 2020: Virtual

Safety 2020: Virtual will be held June 23-25. We will deliver 60 educational sessions featuring many of the industry trendsetters who were scheduled to present in Orlando, as well as three general

sessions and two plenary sessions. Additionally, participants can now earn up to 6.5 continuing education units (CEUs) and will have 60-day access to all recorded concurrent education sessions.

In addition, the event will feature a virtual exposition where attendees can access information, view videos and chat with company representatives. There will also be opportunities to network with other attendees, speakers and ASSP staff via chat.

For full details on Safety 2020: Virtual, please visit <https://safety.assp.org/> or read the full press release [here](#). We've also posted an [FAQ](#) to help answer your questions.

Anyone registered for the in-person event in Orlando will be contacted to transfer their registration to the web-based experience, to cancel and receive a full refund, or to apply a credit to their account for a future ASSP educational experience.

ATTENTION COLLEGE STUDENTS!

Your development as a safety professional is not the result of a single course or a memorable professor. It's the result of a whole series of decisions you make about your future career. At ASSP, we provide you with opportunities to build your network, expand your education, grow your career, learn from industry experts and earn scholarships.

If you are attending the university of Cincinnati and would like to join our student section of ASSP, please contact Professor Kim Jay, PhD Mechanical engineering, Rhodes Hall 598B University of Cincinnati, (513) 555-6300, jay.kim@uc.edu, and or Dave Schriever @ daviator95@gmail.com to find out more and become a Student Member today.
